Step 1

If you have a new device (e.g. mobile phone), you can easily transfer your Okta Verify settings to the new device.

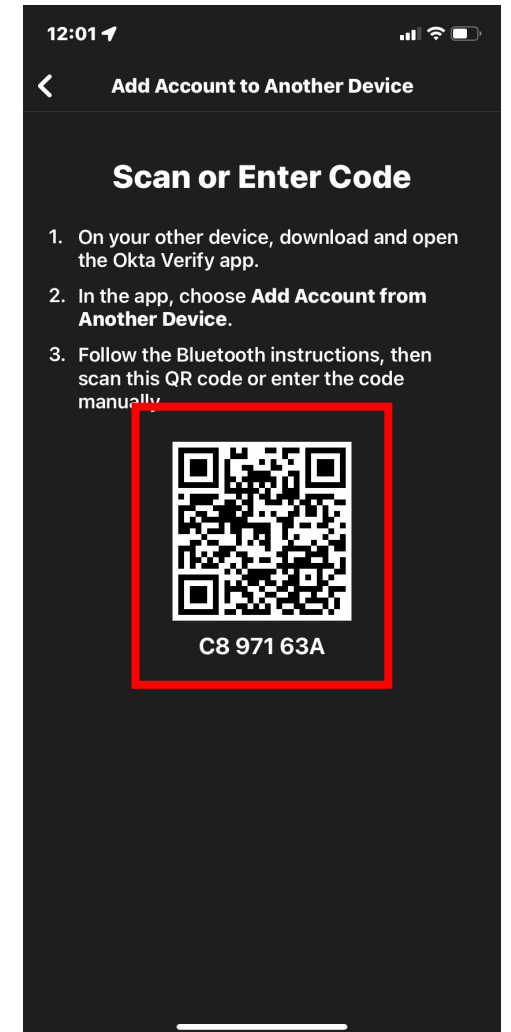

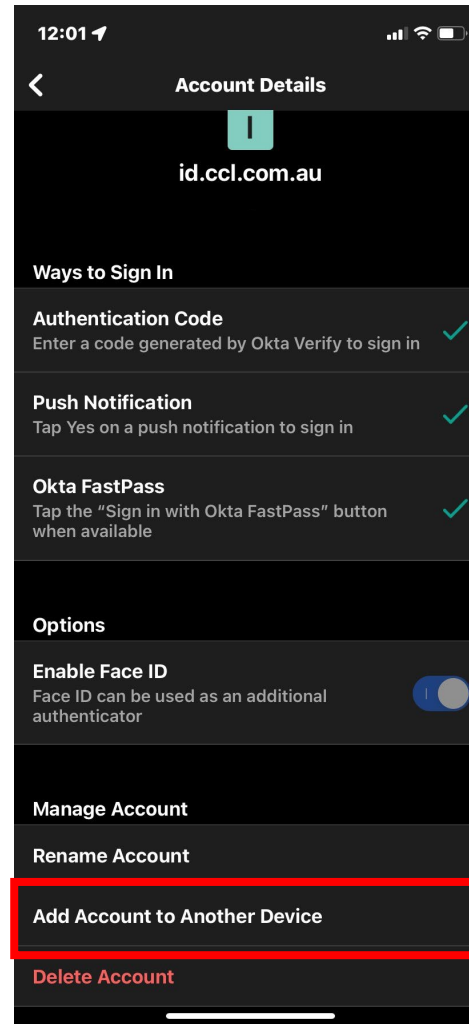

Step 1: On your old/existing device, open Okta Verify, tap the “>” found on the right side of the id.ccl.com.au section.

Step 2

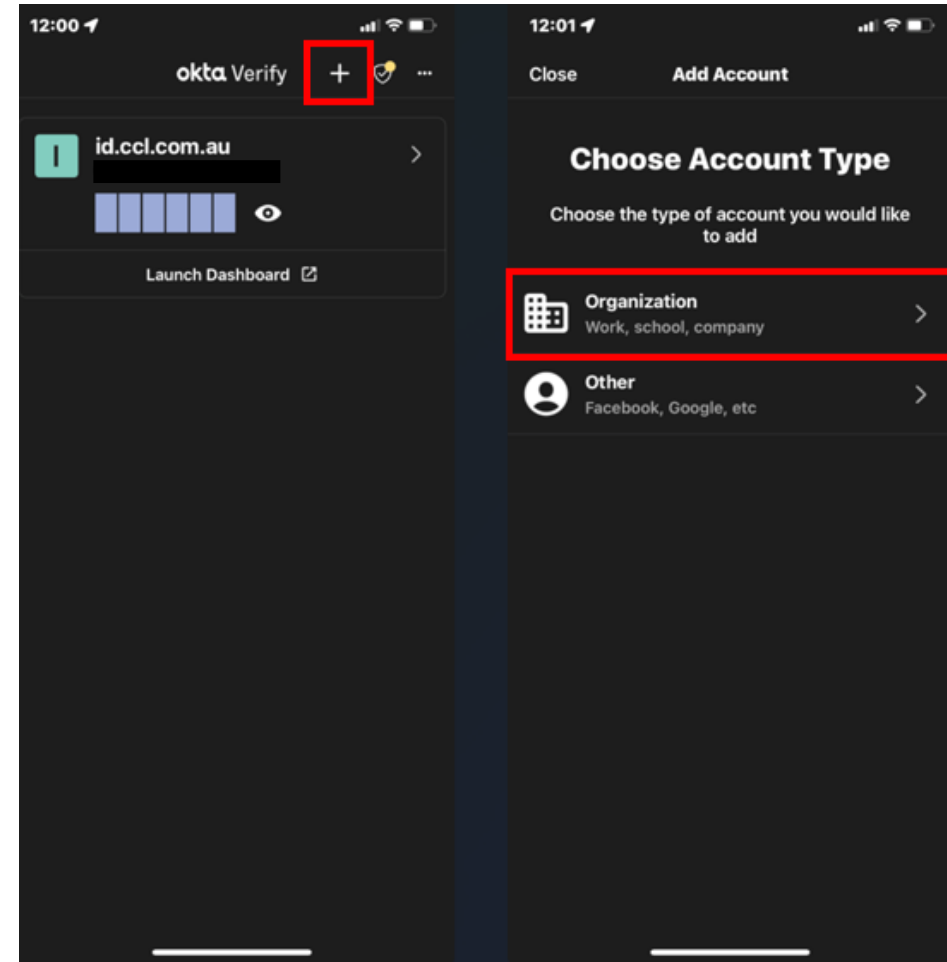

Step 2: Tap **Add Account to Another Device** at the bottom of the screen.

You will be presented with the QR code and security code that can be used to transfer the Okta Verify settings to another device.

Step 3

Step 3: On your new device, open the Okta Verify app and tap the “+” in the top right corner, then select **Organization**.

Step 4

Step 4: Tap Add Account from Another Device and then either scan the QR code that displayed on your old/existing device or enter the security code found underneath the QR code.
